INTRODUCTION

Geststud S.r.l. (hereinafter, the “**Manager**”) announces a selection process (hereinafter, the “**Call for Applications**”) for the assignment, exclusively to university students, of bed spaces (hereinafter, “**Bed Spaces**”) located in the student residence named AMALFI59, situated in Cesena, Via Amalfi 59 (hereinafter, the “**Residence**”).

The Residence is part of the university housing initiatives funded following the selection procedure launched by the Ministry of University and Research (hereinafter, “MUR”) through Ministerial Decree no. 481 of 26 February 2024 (hereinafter, the “Decree”), aimed at granting co-financing for the operational management of projects intended to create bed spaces for university students, within Mission 4, Component 1, Reform 1.7 “Reform of legislation on student housing and investments in student housing” of the National Recovery and Resilience Plan (NRRP).

Among other provisions, the Decree establishes that, for a period of twelve years during which the intended use must be maintained, at least 30% of the bed spaces created through the above-mentioned co-financing shall be primarily allocated to capable and deserving students, even if lacking financial means, pursuant to Article 4, paragraph 1, of Legislative Decree no. 68 of 29 March 2012, on the basis of the ranking lists defined by the competent bodies for the right to higher education.

For the remaining share, the Manager is required, in determining the fees to be charged to the assigned students, to apply a reduction of 15% (fifteen percent) compared to the average market value, in line with the social objectives of the measures set out in the Decree.

In order to determine the aforementioned average rate, the Manager has made use of the online service provided by the MUR, which takes into account the territorial context, reference market values, types of students, types of properties, and the level of services offered to students. In accordance with the provisions of the Decree and under the conditions set therein, the Manager has obtained recognition from the MUR of a variation in the average rates, due to the specific characteristics related to the level of services provided.

1. SPACES AND SERVICES

For the purposes of this Call for Applications, the Manager makes available a total of **36 bed spaces**, arranged in different types of accommodation, complemented by common areas designed to encourage study and social interaction. In particular, the Residence is composed as follows:

- single rooms: with one bed, desk, chairs, and wardrobe;
- accessible single rooms (barrier-free): with one bed, desk, chairs, and wardrobe;
- double rooms: with two beds, desks, chairs, and wardrobes;
- studio apartment: with one single bed, table, chairs, wardrobe, private bathroom, and a kitchenette equipped with appliances.

In addition, the Residence includes shared kitchens/living areas, bathrooms, a laundry room, storage/pantry areas, and a lift.

Wi-Fi service is available throughout the Residence.

2. FEES

Within the framework of its institutional objectives aimed at social integration and the cultural development of university students, Studiumliving provides annual support to deserving students and/or those lacking financial means. Such support is implemented through agreements for the allocation of bed spaces and the application of reduced fees.

Specifically, Studiumliving allocates **11 Bed Spaces** (30% of the total Bed Spaces) to the top 11 students in the ranking list drawn up according to the criteria set out in the following section “Admission Requirements”.

For these students, the Manager, in compliance with the Decree, will apply monthly fees corresponding to the contribution payable by the assignee in accordance with the call for applications for the allocation of bed spaces issued by the competent body for the right to higher education.

Monthly fees for students meeting the income/merit requirements:

€ **230** + utilities / accommodation in a single room

€ **208** + utilities / accommodation in a double room

The remaining 70% of the Bed Spaces will be allocated to the next 25 students in the ranking list drawn up according to the criteria set out in the following section "Admission Requirements". For these students, the Manager applies monthly fees determined within the maximum limits established by the Decree, subject to any adjustments as provided for in the contract signed by the beneficiaries and, in any case, without exceeding the limits set by the Decree.

Monthly fees:

€ **430** + utilities / accommodation in a single room

€ **330** + utilities / accommodation in a double room

€ **595** + utilities / studio apartment

6. DEADLINES FOR SUBMITTING THE 2026/2027 HOUSING APPLICATION

From March 25 to July 20, 2026

7. RANKING LISTS

Studiumliving will prepare a ranking list in which accommodation places will be allocated on a priority basis, as well as a separate ranking list for other assignment requests. Assignment applications from new students submitted between March 25 and July 20, 2026, may already be evaluated and allocated starting from July 21, 2026.

The criterion used for the allocation of places will be based on the merit criteria indicated below, giving priority to those who wish to live in the residence for the entire academic year.

Provisional beneficiaries of the accommodation places will be the students who, meeting all requirements, have accumulated the highest score. For this purpose, the following points are assigned:

For New Italian Students

- If the student is enrolling in years beyond the first or in master's degree programs, the **arithmetic average grade obtained up to the date of application submission** will be considered, taking into account all exams completed by that date;

- For students enrolled in a master's program, doctoral program, or specialization school, the **graduation grade will be considered** (e.g., 110/110 corresponds to 100 points);
- If the student is enrolled in the first year of university, the grade obtained in the high school diploma or the **credits from the third and fourth years will be considered**, converted to a scale of 100 (e.g., 100/100 corresponds to 100 points; 25/25 school credits correspond to 100 points if the diploma has not yet been obtained).

Among the allocation criteria, the availability of the type of room will be taken into consideration. In the case of an equal total score, priority will be given to the younger candidate, and in the event of a further tie, priority will be given to the application submitted earlier. In the absence of communication or if merit data is incomplete, the student will not be excluded but will not be able to receive any merit points.

For New International Students

In addition to the merit parameters mentioned above, for international students the level of proficiency in the Italian language will also be considered. The scoring for New International Students will be assigned based on the level of proficiency in Italian and/or another language different from the mother tongue.

Points, based on language certifications, will be assigned according to the following scheme:

ITALIAN		ANOTHER LANGUAGE	
C2	50	C2	50
C1	40	C1	40
B2	30	B2	30
B1	20	B1	20
A2	10	A2	10

Among the allocation criteria, the availability of the type of room will be taken into account. In the case of an equal total score, priority will be given to the younger candidate, and in the event of a further tie, priority will be given to the application submitted earlier. In the absence of communication or if merit data is incomplete, the student will not be excluded but will not be awarded any merit points.
